Important Information for the 31st Environmental Permitting Summer School

Conference Information

The Exhibit Hall: The exhibit hall is located across from the registration desk and will be open between sessions beginning at 10:10 am on Wednesday, 7/19. All breaks, continental breakfasts, and the reception will be held in the Exhibit Hall to give you an opportunity to visit with our exhibitors and sponsors.

Lunch: A complimentary lunch is provided to conference participants on Wednesday (7/19) and Thursday (7/20) in Ocean Ballroom. To receive this lunch, participants **MUST** bring the lunch tickets that were included in your welcome packet. These lunches are for conference participants only and will not be open to the public.

T-Shirts: Each conference registration packet includes one coupon redeemable for a 31st annual EPSS T-shirt. Please write your first and last name on the back and bring your coupon to the registration desk between 2:00 pm on Wednesday (7/19) and 12:00 p.m. on Thursday (7/20) to get your t-shirt and be entered into a drawing for a two night/three day stay at the Harbor Beach Marriott Ft. Lauderdale as well as a drawing for a two night/three day stay at the Marco Island Marriott and other prizes supplied by our sponsors and exhibitors. (T-shirts are available for pick up until 10:00 am on Friday. Sizes are limited and available on a first come, first serve basis.)

The t-shirt art work is based on an original painting by Amber Ruehe, the owner of **Ambers Nature Art**. Amber majored in studio art at Florida State University, and her work has been shown in galleries all over the nation. With an impressionistic/realistic style, her art captures landscapes and sea life with vivid colors and imagination. Amber currently resides in Georgetown, Texas with her husband and two daughters. She is a stay-at-home mom with a passion for creating art. Prints of the original *Mahi* painting are available for sale in various sizes on Amber's website, in addition to many other original paintings. For ordering information visit www.ambersnatureart.com or email Amber at ambersnatureart@gmail.com.

Welcome Reception: A reception will be held Wednesday night (7/19) from 5:30 to 6:30 p.m. in the Exhibit Hall. A drink ticket is included in your welcome packet for one free drink, after that it's a cash bar. Friends and family are welcome to attend!

Continuing Education Credits: Registered conference attendees may be eligible for continuing education credits. For information on obtaining professional credits for lawyers, engineers, and others, please see page 31 of this book.

Course Materials: The presentation materials used in your classes were produced by our course instructors and will be made available following the conference on our dedicated page at <https://31stenvironmentalpermitting2017.sched.com>. The download links will be located on each course page underneath the speakers. You must use your personal login credentials that you established when you signed up for your courses. Contact us if you need assistance.

Future Conference Information

As most of you know the Marco Island Marriott is undergoing extensive renovations, This caused the convention portion of the hotel to be shut down for our scheduled 2015, 2016, and 2017 Environmental Permitting Summer School conference. Once completed the JW Marriott Marco Island will provide an incredible new convention space and about 90 new rooms.

We are excited to finally be back in 2018!

The 32nd Annual Environmental Permitting Summer School is scheduled for July 17-20, 2018 at the JW Marriott Marco Island.

Details will be forthcoming on our website at www.floridaenr.com

Please refer to our website at www.floridaenr.com or your SCHED program for course descriptions and instructors.

KEYNOTE SPEAKER

Noah Valenstein

Secretary

Florida Department of Environmental Protection

Wednesday, July 19 – 12:10 pm

Noah Valenstein was appointed Secretary of the Florida Department of Environmental Protection by Governor Rick Scott on May 23, 2017. He returned to DEP with nearly 15 years of public service experience with governmental agencies and a passion for natural resource protection.

Noah most recently served as executive director for the Suwannee River Water Management District, where he oversaw the protection and conservation of water and land resources across 15 counties. His previous experience includes working on environmental, agricultural and energy issues in the Executive Office of the Governor and Florida House of Representatives, as well as with several of Florida's leading environmental non-profit groups.

With a strong belief in the power of partnerships, Noah is focused on building relationships between diverse groups of stakeholders, including environmental and agricultural groups as well as local communities and businesses. He's built a reputation of bringing groups together to overcome obstacles and work toward a shared goal of environmental protection, and is committed to continuing in this spirit of partnership and service as DEP Secretary.

Noah was born in Gainesville, Florida and graduated with honors from the University of Florida's School of Natural Resources and Environment. He also holds a law degree from Florida State University. Noah resides in Tallahassee with his wife, Jennifer and daughter, Ava.

CONFERENCE MODERATOR

Tony Carvajal

Florida Chamber Foundation

Wednesday, July 19 - 8:00 am

Tony Carvajal serves as Executive Vice President of the Florida Chamber Foundation, the research and solutions development arm of the Florida Chamber of Commerce. Working in partnership with state business leaders, the Foundation advances initiatives that envision a vibrant and sustainable economy in the Sunshine State.

He is regularly called on to provide guidance and insights into state-level plans and has served on numerous policy steering committees covering topics as varied as education, early learning, workforce development, economic development, transportation, healthcare, volunteerism, civic infrastructure, philanthropy, and smart justice.

He served as the lead facilitator guiding the development of the Six Pillars, a change management framework for securing Florida's future competitiveness, prosperity and sustainability. The Six Pillars have been adopted by businesses, communities and governments across the state and several state chambers and economic development organizations across the country.

Previously, Tony spent 20 years managing and consulting with trade and professional associations across the country. His consulting practice specialized in strategic planning, Board & staff development, and the design of innovative leadership systems.

Tony is a doctoral student at Florida State University, earned a Masters in Public Administration from Florida International University, and holds undergraduate degrees in psychology and communications. He is a certified association executive (CAE) and a graduate of the U.S. Chamber's Institute for Organizational Management (IOM) where he not only earned a specialty certification in nonprofit management and administration but also has been an instructor in the program for the last 10 years.

31st Annual Environmental Permitting Summer School

Sponsors

PLATINUM SPONSORS

[HOLLAND & KNIGHT](#) is a global law firm with more than 1,000 lawyers and professionals located in 21 U.S. offices, including Fort Lauderdale, Jacksonville, Lakeland, Miami, Orlando, Tallahassee, Tampa and West Palm Beach, as well as Bogotá and Mexico City. The firm has experience in a wide range of practice areas, including environmental permitting, land use and entitlements, real estate, base closure, federal grants, tax increment financing, and budget and appropriations. Holland & Knight's Environmental Team has in-depth, hands-on knowledge of land use and environmental law. Our team provides highly experienced counsel on a broad range of land use and environmental issues, including permit approvals, comprehensive plan amendments, brownfields redevelopment, climate change, "green building" issues, environmental insurance, the National Environmental Policy Act (NEPA) and state equivalent reviews, as well as wetlands and natural resources. Our Washington, D.C., office also features an endangered species practice. With a solid track record, industry connections and leadership, Holland & Knight is frequently recognized by leading industry groups and publications. The U.S. News – Best Lawyers® "Best Law Firms" 2015 guide selected the Land Use and Zoning Law and Real Estate Law practice groups for national first-tier rankings and honored the firm as the "2014 Law Firm of the Year" in Land Use and Zoning (November 2013).

[HOPPING GREEN & SAMS, P.A.](#) is a Tallahassee, Florida based firm representing clients statewide primarily in the area of governmental law. Its attorneys have assisted clients at federal, state, regional, and local levels in all areas of environmental and land use regulation and litigation including: solid and hazardous waste, comprehensive planning, DRIs, property rights litigation, toxic substances, wetland, water use, sovereign submerged lands, air emissions, underground injection control, oil and gas exploration, endangered species, industrial wastewater, domestic wastewater, stormwater and potable water. Hopping Green & Sams also represents clients in matters relating to state and local tax, business and insurance regulation, and community development districts. Hopping Green & Sams maintains an active lobbying practice representing clients before the Florida Legislature, state agencies, the governor and Cabinet. www.hgslaw.com.

[MANSON BOLVES DONALDSON VARN, PA](#) is a Florida based law firm with public and private clients ranging from large, multi-billion dollar interests to start ups. The firm focuses on water, environmental, administrative and governmental law as well as business, contracting and construction. Manson Bolves offers a full range of services, from siting and permitting through mediation or litigation. In addition, our legislative practice represents clients with local, regional and state bodies. We assist our clients by negotiating with state and local agencies, and navigating issues through the complex, and sometimes conflicting, governmental process. Manson Bolves also provides representation for clients on transactions between governments and private interests, including the negotiation and drafting of interlocal agreements. Our understanding of government provides a unique perspective for our private sector clients. The processes, the personalities and the policies that move or stall good projects can sometimes be a mystery to our private sector clients. We can untangle the mysteries of those processes and help ensure fair and equitable treatment under the laws, rules and regulations. Likewise, the commercial and construction litigation team at Manson Bolves ensures that clients are properly represented in contractual and related business disputes. While government is complex, a seemingly endless array of mishaps, misunderstandings and mistakes plague the industry. We represent our clients' interests. From contracting through court we have been called upon to ensure our clients get what they need, what they deserve, what they are entitled to. For additional information, please visit www.mansonbolves.com.

[STEARNS WEAVER MILLER](#) is a full service law firm with offices in Miami, Fort Lauderdale, Tampa and Tallahassee. Our Land Development, Zoning and Environmental Department is a statewide practice group focused primarily on the Florida marketplace. This focus enables us to understand Florida's political, business and development trends at the state, regional and local government levels, and effectively represent and serve our clients throughout all regions of Florida. Our team provides our clients an array of legal and planning services related to transactions, land use entitlements, land development, and environmental matters, as well as governmental affairs representation and litigation related to those practice areas. We represent clients at federal, state, regional, and local levels on a broad range of environmental and land

use issues involving wetlands, coastal development, greenfields, comprehensive plan amendments, protected species and habitat, property rights, water quality, brownfields, rezoning, contaminated sites, sovereign submerged lands, marinas/docking facilities, due diligence reviews, water use, developments of regional impact, toxic torts, utilities, stormwater management, beach nourishment, variances, platting, transfer of development rights, and climate change/coastal resilience. Our Department brings together land use, environmental, property rights, and litigation attorneys, in-house planners, and GIS mapping staff. We have strategically built our practice group to include attorneys and planners from many different professional disciplines, each providing unique assets for our clients. Our team includes attorneys previously serving as in-house counsel for corporations and industry groups, as well as attorneys and planners who formerly held high-level positions with major local governments and regional and state agencies – this diversity brings multiple perspectives to the table which enables creative problem solving, and results in practical advice to our clients. For additional information, please visit www.stearnsweaver.com.

GOLD SPONSORS

[AKERMAN LLP](#) is a leading transactions and trial law firm known for its core strengths in middle market M&A, within the financial services and real estate industries, and for a diverse Latin America practice. With more than 600 lawyers and government affairs professionals and a network of 20 offices, Akerman is ranked among the top 100 law firms in the United States by The American Lawyer (2015). Akerman also is ranked among the top 50 law firms for diversity in The American Lawyer's Diversity Scorecard (2015).

[CARLTON FIELDS](#) has 400 lawyers and governmental consultants in 10 offices, including Atlanta, Hartford, Los Angeles, Miami, New York City, Orlando, Tallahassee, Tampa, Washington, D.C. and West Palm Beach. The firm serves a mix of international, national, and local businesses, state and local public entities and individuals. Members of the firm's Government Law and Consulting Practice Group have extensive experience in all areas of environmental, land use, and administrative law and governmental consulting at the local, state, and federal levels. The practice includes not only transactional work but also significant litigation. It also employs two AICP planners to assist its clients in land use matters including due diligence, permitting, zoning, code review, site plans, sector plans, DRIs, comprehensive plan amendments, condominiums and community associations and legislative advocacy. For more information, please visit www.carltonfields.com.

[DEWBERRY](#) is a multi-disciplined firm with a proven history of providing architecture, consulting, engineering, and management services to a wide variety of public- and private-sector clients. Recognized for combining unsurpassed commitment to client service with deep subject matter expertise, Dewberry is dedicated to solving clients' most complex challenges and transforming their communities. Established in 1956, Dewberry is headquartered in Fairfax, Virginia, with more than 50 locations, including 18 offices in Florida, and over 2,000 professionals nationwide. We remain a client-focused, family-owned business supporting our clients' operations and enhancing community initiatives.

[ENVIRONMENTAL CONSULTING & TECHNOLOGY, INC. \(ECT\)](#) is an employee-owned, full-service environmental consulting firm offering a broad range of environmental, engineering, planning, and management services. The company is headquartered in Gainesville, Florida, and has more than 170 employees based in eight Florida offices, eight Midwest offices, two North Carolina offices, and single offices in Massachusetts, and Tennessee. ECT provides multidisciplinary environmental consulting services throughout the United States, including siting, licensing, permitting, and remediation for projects ranging from less than 1 acre to more than 30,000 acres in size. www.ectinc.com

With approximately 900 attorneys in 20 offices, [FOLEY & LARDNER LLP](#) provides award-winning business and legal insight to clients across the country and around the world. Our team-based approach, innovative technology, and focus on value and client service are continually recognized by our clients and the legal industry. For 13 consecutive years, Foley has been recognized on the BTI Client Service A-Team, a client service survey of *Fortune* 1000 corporate counsel (2016 BTI Client Service A-Team survey, The BTI Consulting Group, Wellesley, MA). In addition, Foley received 27 national Tier 1 rankings in the 2017 edition of *U.S. News – Best Lawyers*® “Best Law Firms” and was named to the *InformationWeek* 500 list for seven of the past eight years for technological innovation that enhances business value. Learn more at Foley.com.

[GREENBERG TRAURIG, LLP](#) Greenberg Traurig's environmental and land development practices comprise an integrated network of professionals in over 35 offices in the United States, Latin America, Europe, the Middle East and Asia, including seven offices in Florida. Our team is nationally recognized for experience in a number of areas, including permitting, auditing and compliance, brownfield development and risk transfer, natural resources, Native American law, and a broad range of environmental, toxic tort, and government enforcement litigation (administrative, civil, and criminal). GT regularly assists clients with a broad variety of land development issues, including navigating the complexities of Florida's growth management laws and policies. The firm's environmental professionals work closely with the firm's land development, real estate, corporate, energy, and other transactional lawyers and have significant experience in key industry sectors, including: mining, oil and gas, transportation, waste management, electricity generation, clean technology, pulp and paper, steel and other metals, chemicals, pharmaceuticals, and real estate. GT's results-oriented and practical approach to problem solving has led major national companies and other organizations to entrust the firm with their most challenging environmental and land development matters. For additional information, please visit www.gtlaw.com.

[GUNSTER ENVIRONMENTAL, LAND USE & PROPERTY RIGHTS PRACTICE](#) guides clients through Florida's complex environmental permitting and regulatory landscape and defends owner's rights as necessary. The attorneys represent public and private entities, both national and international, who own, lease, develop, finance and manage properties throughout Florida and the United States, including agricultural, commercial, energy, industrial, residential, retail, and mixed-use properties. Gunster's environmental practice brings together real estate, land use, environmental and property litigation attorneys, staff and in-house planners. Our lawyers include Florida Bar certified attorneys who provide counsel and representation before state and federal environmental agencies on all aspects of water resource permitting, water use and water supply, air quality and emissions, water quality permitting including NPDES, Everglades restoration matters, and issues related to state and federal administrative law. Gunster attorneys are regularly featured authors and speakers at seminars and conferences throughout Florida. Additionally, they are involved with related organizations including the American Water Resources Association, the American Water Works Association, Florida Bar Environmental and Land Use Law Sections, the Florida Bar Property Rights Committee, the , the Florida Green Building Coalition and U.S. Green Building Council, the American Planning Association, ULI, NAIOP, and ICSC. www.gunster.com.

[KLEINFELDER](#) is an employee-owned environmental, architecture and engineering consulting firm providing solutions to meet our world's complex infrastructure and natural resource challenges. With over 50 locations throughout the U.S., Canada and Australia, Kleinfelder employs over forty people in three Florida office locations: Mt. Dora, Jacksonville, and Tampa. Our offerings include a diverse set environmental engineering, planning, and permitting services that are key to mining, industrial, transportation, and commercial projects in Florida and the southeast. We have highly experienced professionals in wetland and wildlife regulation and conservation, all stages of project due diligence and environmental permitting, civil engineering design and permitting, water resources, geotechnical investigations, air permitting and testing, industrial hygiene and safety, and construction materials testing. Working as a team, our bright people will deliver the right solutions for clients. www.kleinfelder.com

[LEWIS, LONGMAN & WALKER, P.A.](#) We see ourselves as problem solvers. We are litigators and mediators. We are deal makers, not deal breakers. We know government. We know business. And, we pride ourselves on crafting solutions that work. For everyone. Doing so saves time and money. At LLW, we don't believe that winning solutions for our clients means that someone else has to lose. We see things differently. For over 20 years, the attorneys at LLW have helped the individuals, businesses and governments that have shaped Florida's future. We offer solutions to issues associated with complex local, state, and federal laws and regulations. We focus on the specific, technical and seemingly every-changing areas of Environmental, Land Use and Governmental Law. LLW is comprised of well-known and respected attorneys with the experience and skill to quickly resolve difficult legal challenges. We believe in building long-term attorney-client relationships based upon collaboration and solid performance. We are committed to responding to clients' needs promptly and economically. Our offices are in Jacksonville, Tallahassee, Tampa Bay and West Palm Beach. Wherever you are, we're nearby. www.llw-law.com

[NORTHSTAR CONTRACTING GROUP, INC](#) (NorthStar) is a licensed State of Florida Professional Engineering and Construction firm headquartered in Tampa, Florida with service centers in Tallahassee, Orlando and West Palm Beach. We are an established and well respected provider of professional civil and environmental engineering, construction and emergency response services focused on serving State and local municipal governments. NorthStar has been in business for over 30 years with over 150 environmental professionals in Florida providing expertise and solutions to challenging environmental

issues. Our areas of specialization include: all phases of environmental site assessments; petroleum contamination assessments and remediation; storage tank assessments; construction management services; hazardous materials management, response and cleanup; brownfields coordination, funding management and implementation; contaminated site management and safety evaluations; land acquisition and natural resource management; environmental permitting; regulatory compliance; computer and GIS modeling; civil and water resource engineering; and, mold/lead and asbestos testing and abatement. Since 1997, we have provided these services for State of Florida municipalities such as the Cities of St. Petersburg, Clearwater, Tallahassee, and Live Oak; County agencies including Pinellas, Sarasota and Hillsborough Counties; and State agencies including the Florida DEP, Florida DOT, Florida Fish and Wildlife Conservation Commission, and the State of Florida Water Management Districts including the South, Southwest and St. John's River Districts. www.northstar.com.

[SOUTHERN WASTE INFORMATION EXCHANGE \(SWIX\)](http://www.swix.ws) operates as a cooperative effort between the Department of Environmental Protection, the Florida Chamber of Commerce and Florida State University. SWIX serves as a non-profit clearinghouse and repository for business concerning information on solid and hazardous waste management alternatives; pollution prevention approaches; market development for recyclable materials in Florida; recycled projects which are available to Florida markets; the availability of and demand for waste materials; waste management services and products; and regulatory information related to solid and hazardous waste management. www.swix.ws.

[TERRACON](http://www.terracon.com) is a 100 percent employee-owned consulting engineering firm providing quality services to clients. Since 1965, Terracon has evolved into a successful multi-discipline firm specializing in environmental, facilities, geotechnical and materials. Over its history, Terracon has achieved significant expansion through both internal growth and acquisitions. Terracon currently has more than 3,800 employees in 150 offices and 40 states nationwide. Additionally, we partner with our U.S. clients to serve their international needs. The firm's success is further evidenced by a current ranking of 35 in Engineering News-Record's 2015 listing of the Top 500 Design Firms, as compared to a ranking of 54 a decade ago. Terracon's growth is due to dedicated employees who are responsive to clients, provide quality services, and take advantage of opportunities in the marketplace. Our environmental services include: site assessments and investigations; remedial design and implementation; Brownfields/site redevelopment; natural resources/wetlands delineation/mitigation; industrial hygiene/health and safety; asbestos/lead/mold/indoor air quality; regulatory compliance; environmental management systems; and solid waste planning and design. www.terracon.com.

[WASTE MANAGEMENT](http://wm.com) is the leading provider of comprehensive waste management services in North America and the nation's largest residential recycler managing nearly 15 million tons of recyclable commodities in 2015. Through its subsidiaries, the company provides collection, transfer, recycling and resource recovery, and disposal services. It is also a leading developer, operator and owner of landfill-gas-to-energy facilities in the United States. In Florida, our 4,000 employees operate 18 hauling facilities, 15 landfills, 22 transfer stations, four Material Recovery Facilities, C & D recycling centers, and two organics recycling facilities. To learn more about us, visit wm.com or recycleoftenrecycleright.com for information on our nationwide recycling campaign.

[THE WETLANDSBANK GROUP \(TWG\)](http://www.wetlandsbank.com) is one of the nation's most respected and successful mitigation bankers. TWG developed and sold out its wetland bank in Pembroke Pines, FL; the first credit transfers ever authorized by the Army Corps of Engineers. TWG has completed the transfer of the 2,778-acre Panther Island Mitigation Bank in Naples, FL to the Audubon of Florida's Corkscrew Swamp Sanctuary, as the long term managers and is currently restoring an additional 1,841 acres that has been added to the existing bank project. Panther Island's commitment to the environment has earned national and international recognition. Most recently, Corkscrew Swamp Sanctuary, including the Panther Island Mitigation Bank, was named a Ramsar Wetland of International Significance, one of only 26 in the United States. It was the first time ever that a mitigation bank has received this honor. During 2015 TWG added Corkscrew Regional Mitigation Bank to its portfolio thus furthering its commitment to the Southwest Florida market. TWG has completed the first phase of construction on Blackwater Creek Mitigation Bank north of Orlando in the Wekiva Basin, and will complete the last phase of construction in 2016 at Legacy Farm Stream Bank in Georgia south of Atlanta. TWG has expanded into Mississippi by partnering with founders of Delta Mitigation Bank. TWG seeks partnerships with public or private entities to design, permit, develop, market, and operate mitigation banks, and also sells mitigation credits on behalf of entities, such as Broxton Rocks Mitigation Bank a stream and wetland bank also in Georgia and Panther Passage Conservation Bank, a Panther Habitat bank in Hendry County Florida. AMEC FOSTER WHEELER is a multidisciplinary consulting firm offering solutions to a wide variety of customers. With annual revenues of more than \$8.8 billion, Amec Foster Wheeler designs, delivers, and maintains strategic and complex assets for its customers across the globe. The company employs more than 40,000 people in around 55 countries worldwide in four markets— Environment & Infrastructure, Mining, Oil & Gas, and Clean Energy. We are leaders in natural resource protection, preservation, and enhancement. Our professionals devise strategies and implement programs that restore sensitive water, wetland, and upland environments. We take care to ensure our solutions address water quality, wildlife, and vegetative communities and ultimately promote healthy and sustainable ecosystems. Disciplines including ecology, hydrology, geomorphology, biology, and sociology are applied to resolve complex environmental challenges in our day-to-day work. Combining the experience and diversity of our team, our designs come to fruition to aid in maintaining the quality of the ecosystems we help our clients enhance and maintain. www.amecfw.com

BILZIN SUMBERG is a commercial law firm based in Florida. Our environmental attorneys provide innovative solutions to a wide range of environmental issues faced by Florida's development and redevelopment community. As part of the firm's Government Relations & Land Development practice group, the environmental team works closely with the Firm's Corporate, Real Estate and Litigation practices to support all aspects of regulation, permitting and enforcement actions related to federal and state wetland regulations, brownfields redevelopment, stormwater management and permitting, marina permitting and operation, landfills, regulatory permitting, hazardous waste and land development. For more information, please visit www.bilzin.com.

BIO-TECH CONSULTING, INC. is a full-service environmental consulting firm headquartered in Orlando, Fla. with offices across the state and clients throughout Florida and the Southeast. Our team of scientists, planners and project managers works to guide all of our clients through successful permitting and compliance processes on local, state and federal levels. Services include permitting, environmental assessments, wetlands mitigation, monitoring, wildlife sciences, erosion and sediment control, pond management, lake management, and landscaping services. Projects range from single-family residences to master-planned communities to government facilities. With the expertise, equipment, knowledge and commitment, Bio-Tech Consulting guides its clients through the increasingly complex and rapidly changing permitting and compliance processes. Our mission is to help our clients maximize development opportunities, minimize timeframes and achieve ecologically sustainable solutions. To learn more, please visit www.bio-techconsulting.com.

BUCHANAN INGERSOLL & ROONEY PC brings true partnership to our clients. We understand the service and partnership attributes our clients most value and have formalized a model for consistently achieving them. The firm has nearly 480 attorneys and government relations professionals practicing throughout the United States, with offices in 17 cities in California, Delaware, Florida, New Jersey, New York, North Carolina, Pennsylvania, Virginia and Washington, D.C. Buchanan provides the full array of legal services to our business clients, and our environmental and land use attorneys provide representation to both public and private clients before state, federal, local and regional governmental entities. Areas of practice include wetlands, consumptive use and coastal construction permitting, comprehensive plan, zoning and DRI and sector plan approvals, community development districts, underground storage tanks, indoor air quality and solid and hazardous waste, involving all state and federal environmental regulatory agencies and the Florida Legislature. www.bipc.com

BUREAU VERITAS is excited to be returning as a sponsor, exhibitor and presenter at the 31st Annual Environmental Permitting Summer School. Bureau Veritas has been serving clients in Florida for over 30 years. With breadth and depth of capabilities in all three pillars of Health, Safety and Environment we build teams to create holistic solutions and work to ensure projects are executed in alignment with our clients' budgets, schedules and goals. We perform this with the belief

and practice that HSE is a vital part of every organization's operational success. As the only HSE consulting firm with globally certified management systems to Quality, Environmental and Occupational Health and Safety standards; the culture of quality and continuous improvement is embedded in everything we do at Bureau Veritas.

[CSA OCEAN SCIENCES INC. \(CSA\)](#), founded in 1970, is a marine environmental consulting firm that specializes in multidisciplinary projects concerning potential environmental impacts of activities in coastal and marine ecosystems and offers a wide variety of desktop and field survey services to support our clients worldwide. CSA's extensive experience conducting multidisciplinary projects to evaluate potential environmental impacts has often involved environmental permitting and representing clients during all phases of the regulatory process. CSA's programmatic approach to projects provides objective information while balancing the environmental, legal, and political sensitivities required for many projects. This approach has resulted in positive industry recognition and the award of thousands of studies for more than 600 clients, including engineering firms; port authorities; dredging companies; oil and gas companies and service providers; utility companies; land developers; law firms; telecommunication companies; and local, state, federal, and international government agencies. Our 47-year corporate track record has resulted in a reputation of reliable technical performance, unbiased analyses, and scientific integrity. Utilizing the extensive knowledge of our personnel in addition to the techniques, facilities, equipment, and business considerations of applied sciences and technologies, CSA is staffed and equipped to offer a complete range of services for projects in offshore, nearshore, estuarine, wetland, and freshwater environments. www.csaocean.com.

[DAWSON & ASSOCIATES](#) is the nation's premier firm for resolving complex challenges involving Federal water-related environmental policy and procedures, and Federal contracting. Unique in our capabilities, the Dawson team includes former Members of Congress, retired Federal agency heads, dozens of agency heads, and dozens of former military and civilian leaders from the Army Corps of Engineers, including more than a dozen retired flag officers. No other firm can match Dawson's ability to develop solutions to complex Federal environmental regulatory challenges. We also offer project risk assessment and many technical services for clients needing specialized expertise to address problems not requiring government advocacy. Members of Dawson have extensive experience at the highest levels of Federal and State government. Many have decades of experience developing and administering complex policies. Our team has overseen programs and operations in every state and the average Dawson team member has been with us for more than 10 years. There is no other firm that offers this combination of knowledge, experience, and results. If you make us a full member of your team, with our expertise and trusted relationships, we'll bring to you our unmatched record of success! www.dawsonassociates.com.

[DEAN MEAD](#) is a business law firm with 50 attorneys in six offices across Florida including Orlando, Tallahassee, Tampa, Gainesville, Fort Pierce and Viera. Dean Mead serves clients by providing strategic solutions at the federal, state and local levels, and through extensive experience in numerous practice areas including: tax, estate and succession planning, business law, general commercial litigation, employment law, land use and zoning, agribusiness, government relations and lobbying, regulatory compliance, employee benefits, bankruptcy and creditors' rights, commercial real estate, professional licensing, white collar litigation and health law. Additionally, Dean Mead's Water Law Practice includes a seasoned team of attorneys with decades of experience in water resource management, protection, procurement, and planning. The team includes water resource and environmental litigators, counsel with decades of experience in rule development and rule challenges, administrative lawyers in several offices - including Tallahassee - and hands-on familiarity and experience with each of Florida's five water management districts. The firm's current clients own well over 1,000,000 acres throughout the state of Florida, and their combined agribusiness and water resource protection experience is unique among Florida's law firms. For more information, please call (877) 363-8992 or visit www.deanmead.com.

[DE LA PARTE & GILBERT, PA](#) is based in downtown Tampa. Our law firm was founded in 1975 and has been involved in shaping much of the law that affects Florida's environmental, health, social services and governmental policies. Our firm serves a diverse portfolio of state, national and international clients. While our lawyers practice in over 20 areas of law, we focus primarily on Business Transactions, Environmental and Land Use Law, Government, Health Law, and Civil Litigation. We recruit and retain highly skilled, sophisticated lawyers who are rated among the best in the profession. de la Parte & Gilbert as a firm is "AV" rated by Martindale-Hubbell and several of our attorneys are Florida Bar board certified. For more information, please contact us at (813) 229-2775 or visit our website at www.dgfirm.com.

ENVIRONMENTAL SCIENCE ASSOCIATES (ESA) is an environmental consulting and planning firm committed to the principles of sustainability. We specialize in environmental planning, scientific technical studies and investigations, environmental assessments, cultural resource services, ecosystem restoration and mitigation design, climate change solutions, and regulatory permitting and compliance. With diverse practice groups and multiple offices nationwide, ESA's nimble, multidisciplinary teams provide world class expertise to deliver innovative and cost-effective solutions to our clients. To learn more about ESA, visit our website at www.esassoc.com.

ERIN L. DEADY, P.A., is a Florida based firm representing clients statewide from the panhandle to the Florida Keys primarily in the area of environmental and governmental law. Its attorneys have assisted clients at federal, state, regional, and local levels in the private and public sector in all areas of environmental and land use law. Our attorneys work on projects and matters such as Gulf Restoration, sustainability, climate change preparedness and resiliency, energy, public finance, special districts, legislative matters, NEPA, water use and regulation, litigation matters, comprehensive planning, land use and zoning and land development regulations. The firm maintains an active practice in seeking, managing and securing governmental grants and unique special assessments. www.erindeadylaw.com.

E SCIENCES, INCORPORATED, excels at providing engineering, environmental and ecological consulting services to clients in both the public and private sectors. From our offices in Orlando, Fort Lauderdale, Miami and DeLand, our staff has successfully executed projects throughout Florida and the Southeastern United States. Our services include stormwater engineering, environmental permitting, wetland assessment, threatened and endangered species assessments, arborist consulting services, land management and restoration, mitigation, environmental assessments, contamination and remediation, water resource services, NPDES consulting, TMDL consulting, and Brownfield and urban revitalization planning. www.esciencesinc.com

FLATWOODS CONSULTING GROUP INC (Flatwoods) is a Florida-based Small Business Enterprise (SBE) specializing in assisting our clients with the complex regulations associated with natural resources. Our goal is to provide the highest quality consultation to our clients in a cost-effective manner. We accomplish this through honest and consistent personal contact and by putting the long-term needs of our clients and staff members before short-term corporate gain. We strive to attract and retain both clients and staff for the duration of their careers, not just for the duration of a project. Our team of highly qualified scientists and professionals has advanced degrees, professional certifications, and project experience related to many aspects of upland, wetland, and benthic ecology, wildlife surveys, and various types of ecological monitoring, permitting, and mitigation. Flatwoods' staff members have served clients in the southeastern United States for over fifteen years. Our comprehensive technical approach, in-depth understanding of ecology, and regulatory experience result in invaluable project solutions for our clients. Flatwoods has experience in successfully addressing the complex environmental and regulatory challenges associated with transportation and utilities, mining, agriculture, and municipal projects as well as industrial, commercial, residential, and multi-use developments. www.flatwoodsconsulting.com.

FLORIDA POWER & LIGHT COMPANY'S EVERGLADES MITIGATION BANK (EMB) is a wetland restoration project which services Miami-Dade, Broward and the southern portion of Palm Beach County. The 13,249-acre project is located in southern Miami-Dade County and is home to several unique ecosystems supporting 46 protected species of plant and animal life. With its large size and unique location, Everglades Mitigation Bank is a major contributor to a seamless corridor between Biscayne National Park and Everglades National Park. The EMB is owned and operated by Florida Power & Light Company (FPL) which is one of the largest rate-regulated utilities in the United States and the largest electric utility in Florida, serving approximately 4.8 million customer accounts in nearly half of the state. A clean energy leader, FPL operates six large-scale solar energy centers in Florida and one of the leading energy efficiency programs among utilities nationwide. FPL has earned a reputation as a leader in the protection of natural resources, habitat and threatened and endangered species through various programs such as progressive water management, protecting and monitoring sea turtles and protecting manatees and enhancing habitats for the American crocodile and Florida scrub jay. FPL is a subsidiary of Juno Beach, Fla.-based NextEra Energy, Inc. (NYSE: NEE), North America's largest generator of renewable energy from the wind and sun. For more information, visit <https://www.fpl.com/environment/wildlife/mitigation-bank.html>.

GEOSYNTEC CONSULTANTS is a consulting and engineering firm that works with private and public sector clients to address new ventures and complex problems involving our environment, natural resources, and civil infrastructure. Our engineers, geologists, environmental scientists, and other technical and project staff specialize in the areas of environmental studies and cleanup; infrastructure assessment, engineering, and design; environmental, health, and safety management; natural

resources assessment and restoration; and structural extreme load analyses, fluid dynamics, and risk mitigation services. Our firm's practitioners deliver advanced solutions throughout the United States and at select locations in Australia, Canada, Ireland, Malaysia, and the United Kingdom. Geosyntec was founded in Florida, where the firm maintains nine offices, including its corporate operations team. Most of Geosyntec's Florida practitioners have spent the majority of their career in the state. They have provided strategic counsel to officials with the Florida Department of Environmental Protection (FDEP); Region IV of the U.S. Environmental Protection Agency (USEPA); the Florida water management districts; and the Jacksonville District of the U.S. Army Corp of Engineers (USACE), among many others. www.geosyntec.com

[GHD](http://www.geosyntec.com) is one of the world's leading professional services companies operating in the global markets of water, energy and resources, environment, property and buildings, and transportation. Privately owned by our people, GHD provides engineering, environmental and construction services to private and public sector clients across five continents and the Pacific region. GHD has earned a reputation for excellence in site assessment and remediation, compliance, environmental impact assessment, permitting, waste management, emergency response, stakeholder engagement, water resources, and natural resource management. Committed to sustainable development, GHD improves the physical, natural and social environments of the many communities in which we operate. www.ghd.com

[GOLDER ASSOCIATES](http://www.golder.com/us) is a premier global consulting firm specializing in ground engineering and environmental sciences. Golder professionals take the time to build an understanding of client needs and the specific environments in which they operate. Our staff of skilled engineers, geologists, scientists and project managers work collaboratively between offices to provide multi-disciplinary services in the manufacturing, power, oil and gas, urban development and infrastructure, mining and waste management industries. Golder's Florida Operations consists of three locations in Jacksonville, Tampa and Gainesville with nearly 93 professionals offering diverse consulting services including: power facility siting and permitting; environmental resource evaluation and permitting; remediation of environmental impacts; geotechnical engineering; solid waste permitting and design; air and water permitting; EH&S and industrial hygiene regulatory compliance; and construction services. www.golder.com/us.

[THE GOLDSTEIN ENVIRONMENTAL LAW FIRM, P.A.](http://www.goldsteinenvlaw.com), is a boutique, environmental-only practice focusing on Brownfields reuse, economic incentives, legal liability management, and contaminated site investigation and cleanup. The Firm also provides environmental support to law firms, engineers, geologists, and consultants throughout Florida in connection with due diligence investigations, negotiation of regulatory agreements, and support of real estate transactions and corporate mergers and acquisitions. Areas of special emphasis include redevelopment of former gas stations, landfills, golf courses, nurseries, automotive dealerships, and agricultural sites and representation of big box retailers, affordable and workforce housing developers, lending institutions, and local governments. www.goldsteinenvlaw.com.

For 35 years, the consulting engineers at [HRP](http://www.hrp.com) have worked together with our clients to assure that they move their environment forward. Our job is to minimize the environmental risks associated with our client's projects and help them reach their intended business goals. HRP is a multidisciplinary environmental and civil engineering consulting firm, with nine offices throughout the U.S. Our engineers and geologists listen carefully and implement new ideas and processes that are flexible, effective and sustainable. Our collaborative business approach means that our clients are always fully involved and informed through the development and completion of their project. We are sure that you, like our current clients, will find that this partnership approach provides your company with the unsurpassed level of service and integrity that you expect.

[HSW ENGINEERING, INC.](http://www.hsweng.com) is an integrated earth science and engineering firm providing proactive, innovative, and cost-effective solutions for Environmental, Water Resources and Civil/Land Development projects. HSW provides a unique blend of expertise in engineering design, construction management, environmental compliance, permit acquisition and knowledge of state and federal regulations. HSW has acquired a national reputation for using innovative and streamlined approaches to assess and resolve a broad range of complex engineering and environmental concerns. To learn more about HSW, please visit www.hsweng.com.

Established in 1974, [INTERA](http://www.intera.com) is an employee-owned geoscience and engineering consulting firm focused on solving some of the most challenging problems related to the development, management, restoration, and protection of natural resources. The company operates from U.S. offices in Florida, New Mexico, Texas, California, Colorado, Indiana, Washington, and international offices in Switzerland and France. INTERA provides water resource, coastal engineering, environmental,

radioactive waste management, and GIS and data management services to a variety of client sectors and industries. These services are delivered by an outstanding staff of 150 geologists, hydrogeologists, geochemists hydrologists, environmental, water resource, and coastal engineers and scientists, risk assessors, and GIS specialists. INTERA's focus is on performing analyses and delivering the information needed to support sound decision making and minimize project risks. An example is INTERA's role in the development and application of the Integrated Hydrologic Model relied on by agencies such as the Southwest Florida Water Management District and Tampa Bay Water to support their water supply related decision process. www.intera.com

JOHNSON, MIRMIRAN & THOMPSON, INC. Founded in 1971, Johnson, Mirmiran & Thompson, Inc. (JMT) is a 100% employee-owned firm that provides a full range of multi-disciplined engineering, environmental, architectural, and related services to public agencies and private clients throughout the United States. Our staff of more than 1,500 professionals — engineers, architects, environmental scientists, landscape architects, planners, surveyors, construction and program managers, inspectors, designers, CADD technicians, and GIS and Information Technology specialists — is dedicated to the highest-quality project performance. *Engineering News-Record (ENR)* recently ranked JMT among the Top 500 Design Firms (#64) and Top 25 Transportation Firms (#22). JMT maintains several offices throughout Florida, with primary locations in [Lake Mary/Orlando](#), [Fort Lauderdale](#), and [Tampa](#). Our [Natural & Cultural Resources division](#) — consisting of environmental scientists, NEPA specialists, water resource and coastal engineers, archaeologists, architectural historians, GIS professionals, and compliance specialists — provides guidance to clients for a wide variety of environmental, ecological, biological, and historical contexts. For more information, please contact Doug Skurski, MS, PWS at 407-562-4964, by email at dskurski@jmt.com, or visit our website, www.jmt.com.

KYRA SOLUTIONS Founded in 1997, Kyra Solutions has emerged as one of the leading information technology service providers to the State of Florida. This includes more than 12 years of experience helping Florida Government Agencies in implementing electronic permitting, inspection and compliance systems. With a key office in Tallahassee, and headquartered in Lakeland, the firm has successfully completed, on-time and within-budget, numerous fixed-price and fixed-deliverable projects. A number of these projects and IT systems have been implemented with the various Water Management Districts and the Florida Department of Environmental Protection. Since 2001, Kyra's only focus is to serve the State of Florida and that focus will remain for the foreseeable future. Our 130+ strong team of associates that include a core team of Project Managers, Business Analysts, and Architects, are always ready to bring value to our clients. Kyra is thankful to our employees and clients for helping our company achieve the following awards and recognitions: Florida's Best Companies to Work for 2014 and 2015, by Florida Trend Magazine; Awarded Inc. 5000 America's Fastest Growing Private Companies for 2007, 2008, and 2009; Awarded Greater Tampa Bay's Fast 50 Companies for 2007, 2008, and 2009; Kyra's implemented, E-Permitting system, for South Florida Water Management District's was awarded Project Management Institute's (South Florida Chapter) Best Project Planning and Execution Award in 2008; Kyra's implemented AirCom, Air Inspection and Compliance system for FDEP, received a National Award by the AAPCA (Association of Air Pollution Control Agencies); Florida Water Star Certification Award; PMI Registered Consultant Program (RCP) – First firm to achieve this recognition in Florida; and Florida TaxWatch recognized a Kyra Project (FL-SOLARIS) for improved Government efficiency. www.kyrasolutions.com.

LANGAN provides an integrated mix of engineering and environmental consulting services in support of land development projects, corporate real estate portfolios, and the oil and gas industry. Our clients include developers, property owners, public agencies, corporations, institutions, and energy companies around the world. Founded in 1970, Langan employs more than 1,000 professionals in its Parsippany, NJ headquarters and among 29 regional offices including Miami, Fort Lauderdale, and Tampa, Florida.

Founded in Orlando, Florida in 1969, **LOWNDES, DROSDICK, DOSTER, KANTOR & REED, P.A.**, is a multi-practice business law firm. While we represent corporate, entrepreneurial and individual clients across a myriad of industries locally, nationally and beyond our borders, from offices in Orlando, Melbourne, and Mount Dora, our deep-rooted involvement in the real estate industry remains an integral component of the firm, with a strong focus on governmental approvals and land use, as well as environmental matters. Rated AV by Martindale-Hubbell peer review, the firm is a founding member of Meritas, a global alliance of independent law firms offering local insight, local rates and world-class service. LOCAL ROOTS. BROAD REACH.SM www.lowndes-law.com

MITIGATION MARKETING Founded in 1998, was the first company of its kind in Florida, and today remains the largest firm specializing in marketing support for mitigation banks. Known throughout the nation as a leader in the mitigation banking industry, Mitigation Marketing has developed a systematic approach to the marketing and sales of mitigation credits and focuses on service at every level. We provide a one-stop shop for consultants, developers and local and state government entities that are seeking mitigation within the State. Using this approach, Mitigation Marketing has created the largest inventory of released mitigation credits in the state of Florida.

At Mitigation Marketing, we oversee the sale of credits for 25 permitted mitigation and conservation banks permitted by the State of Florida, US Army Corps of Engineers, and US Fish and Wildlife Service. In addition, we cultivate alliances for future mitigation bank management and development opportunities. Mitigation Banks use the landscape approach to protect largescale wildlife corridors, clean water, clean air, and scenic open space. These protected lands will be perpetually managed and are overseen by the state and federal regulators. Each Bank was created to provide compensation for applicable impacts to wetlands and wildlife habitat, in response to both state and federal regulations. At Mitigation Marketing, we act as the link between the environmental agencies and the development industry.

MSE GROUP, LLC is an environmental, engineering, geology, construction and health and safety company with a focus on providing exceptional service to private, industrial, municipal and federal government clients. We understand that our success is directly linked to how effective we are in developing and implementing creative solutions to meet our clients' needs. We know that this requires more than just a focus on the technical aspects of a project. It requires an understanding of the increasingly complex regulatory, institutional, and public policy issues affecting our clients.

MSE Group has multiple offices across the United States. Personnel resources include engineers (civil, mechanical, chemical, environmental, structural, and electrical), cost estimators, schedulers, construction managers, operators, geologists, biologists, chemists. Our staff also includes a variety of industry specialists such as emergency management, auditing, industrial hygiene, safety, training, remediation, and management consulting. The location and multi-disciplinary capabilities of this staff, together with our communication-focused project planning practices, provide the flexibility to meet the demands of intensive, long-term projects as well as respond to client's short-term needs.

We are an SBA-certified 8(a), EDWOSB 8(m), DBE business with additional state and local small business and minority certifications throughout the United States. We have built our firm around providing unparalleled quality services and products through strong client relations; however, we can assist your organization in meeting small business goals if applicable.

OERTEL, FERNANDEZ, BRYANT & ATKINSON, P.A. The law firm of Oertel, Fernandez, Bryant, & Atkinson, PA, has been providing high-quality legal services in the areas of Environmental, Land Use, Regulatory, Governmental, and Licensing Law to clients throughout Florida for more than 30 years. The firm represents clients in the private and public sectors in state and federal courts, and before federal, state, and local agencies. The firm's regulatory practice includes water resources, water and air permitting, wetland permitting, mining, submerged lands, growth management, zoning, utilities and energy law, health care law, labor law, and professional licensing matters. The firm routinely assists clients with issues involving competitive bidding, bid protests, eminent domain, corporate law, construction law, lien law, employment disputes, and non-competition agreements. The firm also lobbies on behalf clients before the executive and legislative branches of the State of Florida. In order to attain our client's goals, we have developed and fostered good working relationships built on trust with many regulatory agencies, including the Florida Department of Environmental Protection, the Army Corps of Engineers, Florida's five Water Management Districts, the Department of Business and Professional Regulation, the Agency for Health Care Administration, the Florida Department of Health, the United States Environmental Protection Agency, the Florida Department of Community Affairs, the Florida Department of Financial Services, the Florida Department of Agriculture and Consumer Services, the Florida Public Service Commission, and the Florida Department of Transportation. The firm is "AV" rated by the national Martindale-Hubbell Legal Directory. The "AV" rating is the highest designation attainable and is based on a firm's professional qualifications, reputation, and ethics. www.ohfc.com. The firm has also been recognized by Chambers Best for Business as one of the top law firms in Florida for environmental matters. Individual members of the firm have been recognized by the Florida Trend Magazine as "Legal Elite" (Segundo J. Fernandez, Timothy P. Atkinson, and Sidney C. Bigham III), by Chambers Best for Business (Kenneth Oertel and Segundo J. Fernandez), and by Super Lawyers (Kenneth Oertel, Segundo J. Fernandez, and Timothy Perry). www.ohfc.com.

[SCS](http://www.scsengineers.com) is an employee-owned environmental consulting and construction firm that designs and implements sustainable environmental solutions. SCS is a full service provider serving public and private clients across the nation and around the world. Our Florida offices have been providing environmental services throughout Florida since 1985 and currently are located in Boca Raton, Miami, Orlando, and Tampa. We study challenges and design solutions; we remediate, build and operate environmental and energy projects and systems; and we monitor a wide range of environmental control systems. Our core capabilities are: solid and hazardous waste management, landfill gas, site remediation, renewable energy, and regulatory compliance for air, water, and soil. We remain at the forefront applying new processes and technologies to improve environmental compliance, reduce project risk, and provide our clients the ability to foresee and adapt business to environmental, social, economic and regulatory change. Continuous improvement, our in-the-field experience, and our deep involvement in the industries we serve help us deliver smart and simple solutions that work. www.scsengineers.com

For more information, please visit tampabaywater.org.

[TETRA TECH, INC.](http://www.tetra-tech.com), established in 1966, is a full service engineering consulting firm. We offer proven experience and demonstrated expertise in Civil Engineering, Hydrogeology, Water and Wastewater Treatment, Stormwater Management, Survey, Mapping, GIS, Aviation, Transportation, Permitting and Construction Services. Tetra Tech has designed, permitted and constructed several large well fields and brackish groundwater reverse osmosis water treatment plants in Florida. Our

award winning team has been recognized for innovation and dedication over the years, and we bring that perspective to each new project. Engineering News Record (ENR) has ranked Tetra Tech No. 1 in Water Treatment and Desalination, and No. 8 for Engineering Design Services. For more information, please visit our website at www.tetrattech.com

TRINITY CONSULTANTS For over 40 years, Trinity Consultants has assisted organizations with environmental permitting and compliance challenges, specializing in air quality issues (experts in air permitting and the go-to firm for dispersion modeling). Trinity places a great emphasis on hiring and developing the most talented environmental professionals to deliver accurate, thorough, and consistent compliance assistance. Our network of environmental experts spans North America and includes teams in China, the Middle East, and the United Kingdom. With such a broad footprint, Trinity is able to serve a variety of clients with robust solutions based on the international forefront of environmental permitting and compliance strategy. By maintaining local offices in Florida with staff intimately engaged with DEP in Tallahassee, each district, and all local agencies, Trinity can combine national experience with local insight and relationships. Trinity provides innovative, cost effective solutions in the areas of air permitting and regulatory compliance, sustainability and environmental management, greenhouse gas reporting and strategy, air dispersion modeling, EH&S auditing, toxicology & industrial hygiene, and EH&S information management. Trinity also provides extensive professional training on environmental topics, environmental modeling software, and environmental staffing services. www.TrinityConsultants.com

UNIVERSAL ENGINEERING SCIENCES, INC. Fifty-two years ago, Seymour “Sy” Israel embarked on a one-man venture to start an engineering business that would eventually become Universal Engineering Sciences, Inc. (Universal). Today, Universal has grown into a 600+ person, 18 branch, \$60 million a year operation. Although our operations are primarily in the Southeast, Universal has been named a National Top 500 Design Firm by Engineering News-Record every year since 1985. We are proud to have the distinction of being the largest family-owned firm of our kind in the United States. Universal has become a reliable, cost-effective resource for clients nationwide looking to enhance the consistency of the plans review, inspection and code compliance responsibilities. Our staff provides geotechnical engineering, environmental sciences, construction materials testing, and threshold inspection solutions for both county and municipal governments, builder groups and developers. We take a proactive approach with solutions developed for each client, which allows for the most accommodating and responsive service package available in our industry. Universal provides sound, client-focused solutions for real estate related environmental liabilities and regulatory compliance issues. We offer comprehensive integrated services, extensive technical expertise, and a long-standing reputation for excellence and integrity. As a well established and growing firm, Universal has the experience necessary to perform consistent, high-quality work. We offer a diverse range of environmental services to help our clients maintain compliance and achieve their goals. Universal’s environmental services staff includes professional geologists, environmental engineers, environmental scientists and biologists with the focus of being a solution provider that can assist you in managing your environmental liabilities and risks. Many of our technical consultants are cross trained in the services that Universal provides, which allows us to develop innovative and economical solutions for regulatory compliance in any industry. As a recognized regional leader in environmental consulting services, Universal has the technical team to protect your assets and promote the sustainability of your business. To learn more about Universal, visit our website at www.universalengineering.com.

VANASSE HANGEN BRUSTLIN, INC. (VHB) has served Florida for over 30 years providing comprehensive and integrated services to public and private clients. From planning and design for new communities to water quality monitoring to designing and handling complex environmental permitting, VHB helps clients find the best planning, design and engineering solutions which benefit communities, respect our fragile ecosystems, and contribute positively to economic development. VHB is a Charter Member of the Institute for Sustainable Infrastructure (ISI), the developer of the Envision Rating System, a tool that measures and facilitates the achievement of social, economic, and environmental sustainability goals through capital improvement projects. VHB staff serve on ISI’s key committees and over 100 VHB staff have earned the Envision Sustainability Professional (ENV-SP) credential. VHB has 1,100 staff in 23 offices, with Florida offices in Orlando and Sarasota. www.vhb.com

WANTMAN GROUP, INC. (WGI) is a Florida consulting firm founded in 1972 to provide a comprehensive range of infrastructure services for both the public and private clients. With over 300 professionals, WGI offers a diverse range of services, including Environmental Sciences, Civil Engineering, Surveying and Mapping, Transportation Engineering, Structural Engineering, Subsurface Utility Engineering, Landscape Architecture, Land Planning, Water Resources Planning, and Creative Services. The WGI Environmental Division is recognized statewide as a leader in innovative, cost saving, state and federal permitting solutions for both public and private clients – solutions that are built on a foundation of respect for

the environment and fairness to our clients. WGI has a highly experienced team of environmental scientists, biologists and geologists with an unsurpassed knowledge of local, state and federal permitting rules and regulations. The WGI Environmental Division is led by a former associate Director of the White House Council on Environmental Quality (CEQ) and Deputy Assistant Secretary of the Army (USACOE). He is supported by a team with over 120 years of environmental experience in Florida, including former state and federal regulators. From Project Development & Environment (PD&E) work with FDOT projects, the preparation of NEPA documents, environmental policy formulation, environmental site assessments (contamination, wetlands, T&E Species, etc.) for private projects, all the way through environmental resource permitting and post permit compliance, there isn't a scope too big or too small, that the WGI Environmental Division has not successfully managed for public and private clients. Highly recognized for exceptional service, as WGI continues to grow throughout Florida it remains committed to excellence, its core beliefs and a high standard of ethics. WGI's Corporate Office is located in West Palm Beach with branch offices in Fort Lauderdale, Jacksonville, Orlando, Port St. Lucie, Tallahassee, and Tampa to better serve our clients throughout Florida. www.wantmangroup.com

[WESTERVELT ECOLOGICAL SERVICES \(WES\)](http://www.wesmitigation.com) creates mitigation banks and provides environmental mitigation and habitat planning services to landowners, businesses, government agencies, and land trusts. A division of The Westervelt Company, a private land resource organization founded in 1884 and headquartered in Tuscaloosa, Alabama, the established industry leaders at WES excel in the field of wetland and endangered species mitigation services, and to-date have created a nationwide habitat mitigation company consisting of 18 approved mitigation and conservation banks located in four states. Celebrating its tenth business anniversary in 2016, WES will also expand this year into the Rocky Mountain region, establishing its third regional office and staff in Englewood, Colorado. Other WES regional offices are located in Sacramento, California, and Auburn, Alabama. For additional information please visit www.wesmitigation.com.

BRONZE SPONSORS

[BERGER SINGERMAN](http://www.bergersingerman.com) is Florida's business law firm, with offices in Boca Raton, Fort Lauderdale, Miami and Tallahassee. We are proud of our talented team of forward-thinking attorneys who are passionate, creative problem-solvers, and leverage a collaborative, team-based approach to give clients a competitive edge. Berger Singerman attorneys are widely respected and recognized for their exceptional work both in the courtroom and the boardroom. Our environmental and land use attorneys routinely assist clients with the full range of issues faced by industry and the regulated community, as well as with the financing, development, cleanup and sale of real property. These attorneys afford our clients the benefit of their experience and favorable relationships in working with federal, state, regional, and local agencies in a variety of capacities, including negotiation and litigation in the areas of permitting, enforcement and rulemaking. Our environmental team includes Dan Thompson, former Deputy Secretary and former General Counsel for the Florida DEP, and Sam Poole, former Executive Director of SFWMD. We welcome two new partners who recently joined this practice area: Floyd Self, who focuses on the energy sector and routinely appears before the Public Service Commission, local governments, and the courts, and Angela Morrison, who has practiced environmental law in Florida for more than twenty-five years. For more information about the firm or our team members, please visit www.bergersingerman.com or access our Doing Business in Florida resource www.flabusinesslaw.com.

[BREEDLOVE, DENNIS & ASSOCIATES, INC. \(BDA\)](http://www.bda.com) is a professional environmental and natural resources consulting firm founded in 1976. Since its inception, BDA has established a reputation for solving the most difficult environmental problems through the application of scientific principles, knowledge of the regulations, and the ability to effectively communicate with regulators and clients. For over 40 years, BDA has applied its expertise in natural systems ecology to environmental consulting in: wetland delineation; wetland assessment and mitigation planning; environmental permitting; wildlife and plant surveys; Threatened and/or Endangered species surveys and regulatory agency coordination; habitat restoration; land management planning; water quality; aquatic ecology; litigation support and expert witness services.

For more than seven decades, [BROAD AND CASSELL](http://www.broadandcassell.com) has played an integral role in shaping Florida's landscape. Serving clients worldwide from 10 offices throughout Florida, our approach is simple: serve not only as problem solvers but also trusted advisors. In short, our 170 attorneys provide legal counsel and support to our clients in over 27 areas of law and more than 25 industries. From real estate developers and construction companies to health-care providers and Fortune 500 companies, our attorneys tailor their approach to the individual needs of each client from the smallest details, including client interests and issues, to the bigger picture—the nation's economy and its ever-changing statutes and laws. Our Land

Use and Environmental Law Practice Group is known for its substantive legal expertise and decades of experience in environmental and land use law at the federal, state and local levels before the executive, legislative and judicial branches of government. The firm's attorneys are available to represent any property or business owner in a multitude of areas of real estate development, environmental and land use involving environmental and issues associated with the acquisition, entitlement, development, operation and disposition of real estate assets, including administrative, civil and appellate litigation. The firm and its attorneys have been continually recognized on a statewide and national level. Recent honors include recognition as a Best Law Firm by U.S. News – Best Lawyers® (2017), a Leading Florida Law Firm by Chambers USA (2016), and a Leading Real Estate Law Firm by Multi-Housing News (2016), among others. www.broadandcassel.com

[THE CHAPPELL GROUP, INC.](http://www.thechappellgroup.com) (TCG) was founded in 2005 and provides environmental consulting services to both the public and private sectors serving the South Florida area and the Caribbean. TCG is headquartered Pompano Beach and has an office in Miami Shores. For over 11 years, TCG has provided environmental permitting services for various projects, project phases and permit compliance. TCG coordinates with various local, State, and Federal agencies during the pre-application process, the permitting processes, and the compliance phase. We have experience with agencies such as United States Army Corps of Engineers, South Florida Water Management District, Florida Department of Environmental Protection, Florida Game and Freshwater Fish Commission, and United States Fish and Wildlife Service. TCG provides other services, including coastal engineering and design, wetlands delineation and assessments, mitigation design and monitoring, endangered species surveys, environmental impact statements, Phase I environmental site assessments, benthic surveys, and chemical and physical analyses. Contact: Sarah Chappell, President, (954) 782-1908; www.thechappellgroup.com

[COASTAL SYSTEMS INTERNATIONAL, INC.](http://www.coastalsystemsint.com), is a multi-disciplinary environmental consulting and engineering firm that has been delivering creative solutions for coastal, marine, and waterfront projects to public and private clients for over 20 years. Coastal Systems successfully implements complex projects throughout Florida and the Caribbean from offices in Coral Gables, West Palm Beach and Tallahassee, Florida. Coastal Systems is known for taking a strategic, comprehensive approach toward project solutions with a focus on innovation, quality, and value. Coastal Systems provides a full suite of services including project management; due diligence; regulatory compliance, strategy, and permitting; coastal, civil, and marine structural engineering; coastal resilience design; oceanographic surveying including single/multibeam surveys and resource mapping, high resolution aerial mapping using active and passive sensors; environmental impact assessments; economic analyses; and construction administration. www.coastalsystemsint.com

[GAHAGAN & BRYANT ASSOCIATES, INC. \(GBA\)](http://www.gbahogan.com) is one of the largest firms in the country dedicated primarily to the dredging, coastal engineering, and hydrographic survey industries. At GBA engineering and surveying are integrated disciplines. We not only collect survey data, we interpret, present, and apply the data to better serve all your needs. GBA's team includes professional land surveyors, ASCM certified hydrographic surveyors, engineers, geologists, and biologists. Our knowledge and practical experience of the operating characteristics and applications of dredging equipment, as well as our understanding of the dredging industry, provides us with unequaled capabilities in the design of port and coastal projects and the preparation of plans, specifications, cost analysis, and regulatory permitting. Our dredging expertise has been applied to major navigation channels, berths, turning basins and marinas, as well as land reclamation for port development, marsh creation, and beach nourishment projects. With projects along the Gulf of Mexico, Atlantic, and Pacific U.S. coasts, GBA's resume boasts a wide range of coastal and marine experience working for federal, state, and local agencies, as well as for private industry clients.

[GRAYROBINSON](http://www.gray-robinson.com) is a full-service corporate law firm with nearly 300 attorneys throughout 13 offices across Florida. We provide legal services for Fortune 500 companies, emerging businesses, lending institutions, local and state governments, developers, entrepreneurs and individuals across Florida, the nation and the world. At GrayRobinson, we offer not only breadth across a great many legal specialties, but depth and proficiency in each one as well. We have invented a better brand of law firm, counting creativity as a hallmark characteristic and insisting on ingenuity and innovation. At GrayRobinson, there is no such thing as "business as usual." We are one of Florida's fastest-growing law firms and are proud to be on the forefront of emerging legal issues. Our strength is built upon the collective histories of our offices across the state. Our roots run deep in each community we serve. As we have expanded across Florida, we have added to the foundations laid by prestigious law firms in Boca Raton, Fort Lauderdale, Fort Myers, Gainesville, Jacksonville, Key West, Lakeland, Melbourne, Miami, Naples, Orlando, Tallahassee and Tampa. www.gray-robinson.com.

[KIMLEY-HORN AND ASSOCIATES, INC.](#) is a full-service multidisciplinary consulting firm offering a broad range of engineering, planning, landscape architecture, and environmental services to clients in both the public and private sector. Founded in 1967 in Raleigh, North Carolina, Kimley-Horn has become one of the top national engineering firms. We are well known for providing transportation planning, roadway design, landscape architecture, and urban design as well as water, wastewater, land development, and environmental services in Florida since 1968. Kimley-Horn's permanent staff includes more than 2,800 professional, technical, and support staff nationwide in 78 offices throughout the United States. In Florida alone, Kimley-Horn has more than 550 employees in 14 offices throughout the state. Kimley-Horn is not a one-person team, but offers the best of both worlds—the resources of a large, nationally-ranked firm with the personal attention and response of a small dedicated professional team.

[MECHANIK NUCCIO HEARNE & WESTER](#) provides a full range of legal services related to real estate and business with special emphasis on transactions and governmental relations. The firm provides services to clients involved in complex real estate transactions and the development of real property, including Development of Regional Impact review, plan amendments, rezoning, permitting, historic preservation, wetlands, transportation and threatened and endangered species. The firm's environmental practice includes site assessments and compliance audits, brownfields, enforcement defense, wetlands and protected species, Superfund and RCRA, storage tank and dry cleaner site regulation, remediation and reimbursement, solid and hazardous waste, and air and water emissions. www.floridalandlaw.com.

[MOFFATT & NICHOL](#) is a leading global infrastructure advisor specializing in the planning and design of facilities that shape our rivers, harbors and coastlines, and an innovator in transportation solutions associated with the movement of freight. With 34 office locations throughout the Pacific Rim, North America, Latin America, and Europe, Moffatt & Nichol provides clients worldwide customized service and a level of excellence in several primary practice areas – marine terminals; coasts, water, and the environment; waterfronts and marinas; transportation; inspection and rehabilitation; and energy. These expertise are complemented by an in-house commercial consulting group with maritime and logistics analysts specializing in the acquisition and merger of marine infrastructure assets and intermodal transportation systems. For more information about the firm, please visit www.moffattnichol.com.

[THE MOSAIC COMPANY](#) (NYSE: MOS) is the world's leading -integrated producer and marketer of concentrated phosphate and potash. We employ nearly 9,000 people in six countries and participate in every aspect of crop nutrition development. We mine phosphate rock from nearly 200,000 acres of Mosaic-owned land in Central Florida, and we mine potash from four mines in North America, primarily in Saskatchewan. Our products are processed into crop nutrients, and then shipped via rail, barge and ocean-going vessel to our customers in the major agricultural centers of the world.

[THE NASON YEAGER LAW FIRM](#) was founded in 1960 and is Martindale-Hubbell AV rated. The Firm offers a broad range of strategic legal counsel to clients throughout the State of Florida and Nationwide. Our attorneys are highly experienced in a variety of disciplines including environmental, land use, water, real estate, administrative, health-care, banking, governmental, securities, and taxation law. Nason Yeager provides complex civil and appellate litigation services in all administrative, state and federal courts. Throughout its 50-year history, Nason Yeager serves a diverse client base with a Florida focus with strategies designed to be both efficient and effective. www.nasonyeager.com.

[SMOLKER BARTLETT SCHLOSSER LOEB & HINDS, P.A.](#) As buying, selling and developing real estate becomes more and more complex, so does the need for solid, practical legal advice from a knowledgeable and experienced source. The attorneys at Smolker Bartlett Schlosser Loeb & Hinds, P.A. focus on addressing all our clients' property law issues and needs, including real estate transactions, land use and environmental permitting, natural resources law, submerged land rights, water use, eminent domain, inverse condemnation, property tax appeals, title insurance and administrative, civil trial and appellate litigation in state and federal court. Our passion is to efficiently and effectively solve our clients' legal problems while adding value to their enterprises. Contact us for a preliminary consultation as (813) 223-3888 or visit us online at www.smolkerbartlett.com.

[STANLEY CONSULTANTS](#) is an engineering firm engaged in water resources, water supply, and restoration solutions for South Florida. We are currently providing design consulting services on the C-43 Caloosahatchee Reservoir for the South Florida Water Management District. Our engineering services include planning, design, and construction management services to clients with complex challenges in water, infrastructure, power, and the environment. Our experts work across markets and our geographical locations to collaborate with clients, communities, and colleagues and share a passion for

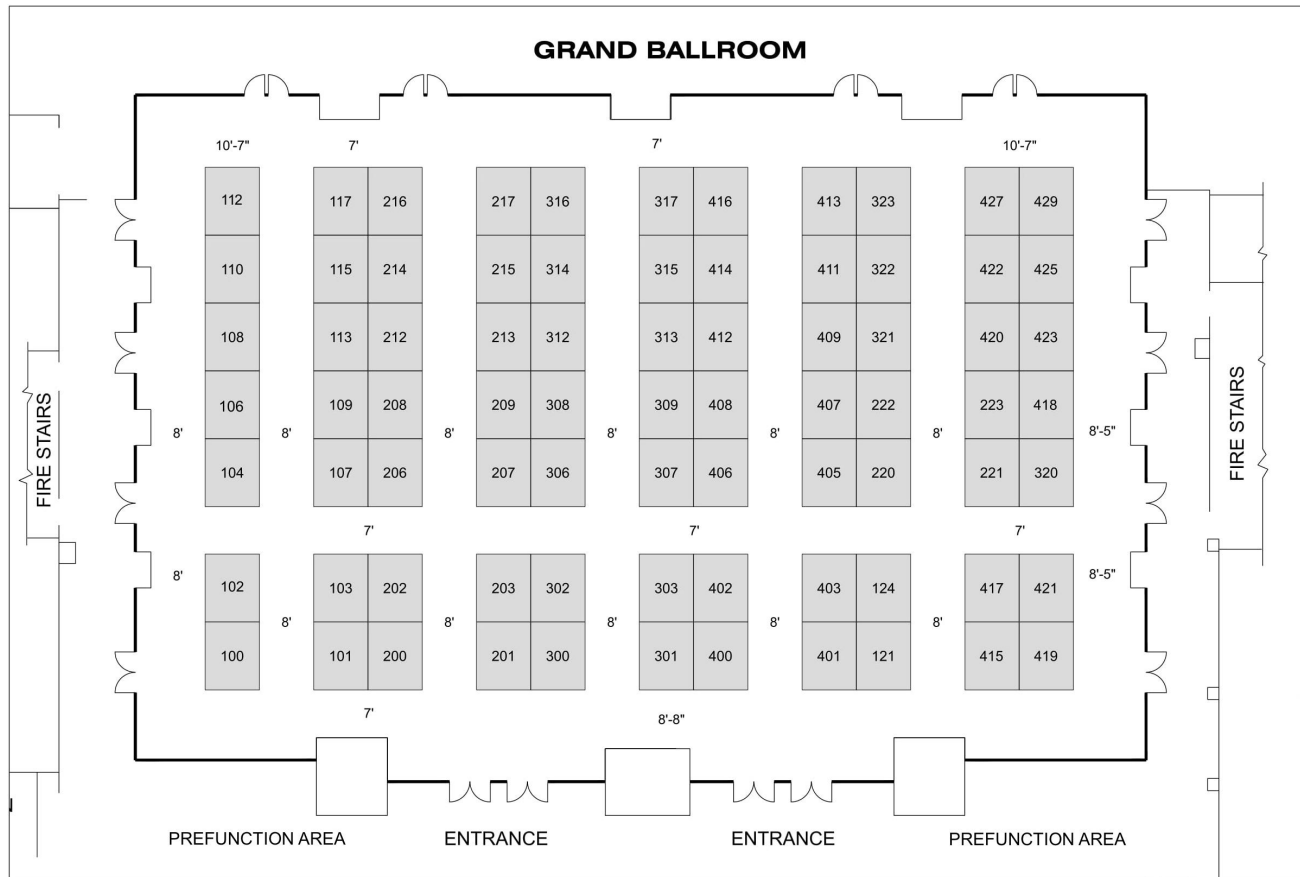

complex problem solving. It's that passion that drives our creativity and innovation to provide bold solutions for our clients. Our staff of 1,000 members in 31 offices has worked in all 50 states, U.S. territories and in 110 countries around the world. Engineering News Record (ENR) magazine ranks us 78th on the Top 500 Design firms list. Internationally, ENR ranks Stanley Consultants 129th among the top 225 firms.

[WIREGRASS ECOLOGICAL ASSOCIATES \(WEA\)](#) is a natural resources consulting firm committed to providing integrated solutions to complex environmental and ecological issues for our clients and customers. We specialize in project management of environmental evaluations, planning, permitting, management, and monitoring services for a variety of industries and market sector clients. WEA's technical service offerings reflect our multidisciplinary expertise and experience in biodiversity and conservation, threatened and endangered species, wildlife and fisheries, habitat enhancement and restoration, regulatory permitting and compliance, and geospatial technologies (including unmanned aerial systems [UAS]). We work closely with our clients to offer cost-effective and innovative solutions based on the objectives and constraints unique to each project. Our commitment to client and customer service exceeds industry standards and is exhibited through the expertise, experience, and responsiveness of our staff.

www.wiregrassecological.com

[WSOURCE](#) was formed in 2008 to provide comprehensive storm water management consulting, compliance inspections, and a cloud-based storm water management compliance system (LiveSWPPP™) for ports, shipyards, airports, and their tenants. WSource has evolved to provide a broad range of environmental consulting services, helping our clients understand their environmental risks and responsibilities and, by taking timely and appropriate actions, avoid complex and expensive corrective actions. We work closely with our clients and their outside legal, engineering, and scientific consultants in every phase of development – from due diligence and entitlement to construction, operation, and maintenance. Our depth of regulatory knowledge and level of insight into the policy decisions of the executive and legislative branches of government provides our clients with a distinct advantage when cost-effective and timely solutions are needed. For additional information, please visit www.WSourceGroup.com.

Obtaining Continuing Education Credits

FLORIDA BAR ASSOCIATION

The conference has qualified for 21 hours of Continuing Legal Education (CLE) credits (Course # 1703510N). Registered attendees of one of our “Early Bird” Discussion sessions can apply for an additional 4 hours of credit, for a total of 25 hours.

Please note- Florida Bar members are responsible for processing your own CLE credits online following the instructions below:

1. Go to www.floridabar.org
2. Hover your mouse over “Member Services” on the right side of the web page
3. Click on “Post CLE,” listed under the “CLER/BCSR” sub-heading.

Once you have completed posting all of your credits, print the confirmation page for your records. If you have not yet set up a Florida Bar website login and password you will need to do so before you can apply for CLE credits. Follow the steps above and select “First time user? Setup for online access” (*please allow 5-7 business days for the Florida Bar to process your new account request.*)

FLORIDA BOARD OF PROFESSIONAL ENGINEERS

The Florida Environmental Network is an approved provider (0003339) of continuing education credits for registered engineers through the Florida Board of Professional Engineers. Engineers can receive 20 PDHs for Areas of Practice by attending the Summer School program. **Please obtain a form from the conference registration desk to receive this credit.** In addition, 1 PDH can be obtained for Ethics and 1 PDH for Laws and Rules if you attend Early Bird Session “B” on The Keys to Success for the Practicing Engineer. **A separate form will be required for these additional credits.** Credit for Ethics will be issued after July 26 when the ratification by the Board of Engineers takes place.

Note- completed forms must be submitted prior to the end of the conference. Submitted forms will be processed following the conference and a Certificate of Completion will be mailed to you at the address listed on the form for your records. We do not directly report to the Board of Engineers. It is each engineers’ responsibility to keep their Certificate of Completion on file in the event of an audit by the Board of Engineers.

INTERNATIONAL SOCIETY OF TECHNICAL AND ENVIRONMENTAL PROFESSIONALS

This course has qualified for continuing education (CE) credits through the International Society of Technical and Environmental Professionals, Inc. (INSTEP). Credits apply to those currently registered by this association. Participants will receive 1 CE credit for every actual hour of instruction. LEP's may enter their credits on the LEP Center Section of the INSTEP website.
